*Charlie Thomas*  
Building Inspector

*Cindy Kreske*  
Secretary

**OUTDOOR HYDRONIC HEATERS INSPECTIONS**

1. If a foundation is required or recommended by the manufacturer, it is the owner's responsibility to have this inspected prior to pouring concrete.
2. Prior to backfilling the trench for the underground burial of the heat lines and electrical wiring, call the building department office and schedule an inspection.
3. Before operating the hydronic heater, call the building department office and schedule an inspection. If a portion of the installation is within the dwelling, a responsible person will be required to be home at the time so that the inspector can enter the dwelling and inspect the installation.
4. Failure to schedule the required inspections at the appropriate times or to violate the requirements of the LaPorte County Ordinance 2007-10-B, will subject the person identified on the permit application to penalties as noted in paragraph 6-D of said ordinance.

Ray Hamilton  
LaPorte County Building Commissioner
